

MatchU

Connecting Students to their College Worlds

ma~~x~~h.♥

Problem

- Students these days have **good skills** and **can't apply them**
- Doesn't help that **Handshake** and similar apps are **useless**.
- Apps like Handshake are full of fake **listings and opportunities**.

Solution

- Enter **MatchU**.
- Allows students to **easily connect** with **student organizations**, connect with **advisors/faculty** that need them
- Allowing students to **apply skills** with people who **actually need them**.
- Students can **hone their skills** all while **building real connections**
- Can also be configured for **any university** across the country or internationally.

Student Registration Demo

See how **easy** it is to **get started** with
MatchU!

Faculty

Look at how **simple** it is to make an opportunity!

Cost Effectiveness

- **Cheap** cost effective solution
- Utilizes a **simple tech** stack of react, next.js, tailwind css, and a database program
- Database is **easily scalable** and cheap for universities

Future Growth

- Slowly **expand** to **other universities** across the country.
- Add more things such as **advisor/faculty/organization pages** that will allow for **further customization** and allow people to **get directly in touch**.
- Add a **point-based incentive system** of sort that would **encourage participation**
- Link **account profiles** as **definitive proof** of their **university commitment**
